

BUTTY SAYLEE

Software Engineer · Cybersecurity · IT & Technical Support

LBR | +231-777917740 | buttysaylee4@gmail.com | linkedin.com/in/buttysaylee | github.com/ButtySaylee | butty-portfolio.vercel.app

PROFESSIONAL SUMMARY

BTech Software Engineering graduate from Delhi Technological University with a minor in Cyber Forensics & Cyber Law. Proven experience building full-stack Python applications, securing APIs, analyzing data at scale, and delivering QA across production environments. Holds Google certifications in Technical Support and Cybersecurity. Seeking entry-level roles in Software Engineering, Cybersecurity, IT Support, or Technical Support.

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, SQL

Software Engineering: Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Development Life Cycle (SDLC), RESTful APIs, Database Design, Web Development, Version Control (Git), Agile Methodologies

Cybersecurity: Security Principles, Risk Management, Authentication & Access Control, Data Privacy, Ethical Hacking, Malware Analysis, Cyber Forensics, Secure Coding, Cyber Law

IT Support: Hardware & OS Fundamentals, Networking (TCP/IP, DNS, DHCP), System Troubleshooting & Diagnostics, System Administration, Help Desk & Ticketing

Cloud & Tools: Git, GitHub, VS Code, Google Workspace, Microsoft 365, SaaS Applications, Cloud Fundamentals (IaaS, PaaS, SaaS)

Core Competencies: Data Analysis, Data Visualization, API Integration, Technical Documentation, QA & Testing, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Quality Assurance Freelancer | [LEAD Group](#) · India

Jan 2026 – Jun 2026

- Conducted end-to-end QA reviews of educational books across multiple grade levels, verifying technical accuracy, grammar, and formatting against editorial standards.
- Identified and resolved errors in content, diagrams, and references, resulting in error-free learning materials delivered consistently across each review cycle.

Data & Software Engineering Intern | [Apnapan](#) · India

May 2025 – Aug 2025

- Built a full-stack data insights platform using Python, Streamlit, Pandas, and Plotly to process and visualize 100+ student survey responses via interactive dashboards.
- Integrated Google Sheets API with OAuth 2.0 authentication to enable secure, real-time, role-based data access for stakeholders.

Remote Virtual Assistant | [Hypley Pty Ltd](#) · USA (Remote)

Apr 2024 – May 2025

- Coordinated administrative operations, managed digital records, and utilized productivity tools to support remote teams and streamline business processes.
- Delivered professional customer support, performed internet research, and prepared reports and documentation while maintaining high levels of accuracy and attention to detail.

Computer Lab Assistant | [William Gabriel Kpoleh High School](#) · Liberia

Sept 2017 – Nov 2021

- Provided computer literacy training to students, delivering hands-on instruction in Microsoft Word, Excel, PowerPoint, internet usage, and fundamental IT concepts.
- Maintained and troubleshooted computer lab equipment, software, and network resources while assisting students and staff with technical support and classroom technology needs.

PROJECTS

FertilNet - Hierarchical Knowledge Distillation for Soil Fertility Prediction

PyTorch · Scikit-Learn · ONNX · Machine Learning

- Developed a Teacher–Assistant–Student knowledge distillation framework for lightweight soil fertility prediction using 12 physicochemical soil features.
- Achieved 90.91% test accuracy while reducing model size by approximately 51× compared to the teacher network through hierarchical distillation.
- Exported the compressed student model to ONNX for low-latency edge deployment and real-time inference.
- Implemented Random Forest, XGBoost, and MLP baselines and conducted comparative evaluation using accuracy, F1-score, and confusion matrices.
- GitHub: <https://github.com/ButtySaylee/FertilNet>

Apnapan Data Insights Pulse · Python · Streamlit · MongoDB · Pandas · Plotly

- Designed and developed a full-stack streamlit Data Insights Generator application that automates dataset analysis, transforming raw data into meaningful insights and visual reports.
- Built data processing and visualization functionalities, leveraging programming, database, and analytical techniques to enhance user-driven data exploration and reporting.
- Repository: github.com/ButtySaylee/data-insights-generator-v2 | Live: apnapanpulse.streamlit.app

Apnapan Platform · React · Next.js · Vercel

- Built and deployed a full-stack web application using modern web technologies, translating product ideas into functional features and an intuitive user experience.
- Integrated AI-assisted coding workflows with debugging, testing, and deployment processes to accelerate development while maintaining application functionality and performance. Live at apnapan-platform.vercel.app

EDUCATION

BTech in Software Engineering (Minor: Cyber Forensics & Cyber Law)

Nov 2022 – Jun 2026

Delhi Technological University, Delhi, India

Relevant Coursework: Data Structures & Algorithms, OOP, Machine Learning, Software Engineering, Web Technology, DBMS, Computer Networks, Information & Network Security, Ethical Hacking, Malware Analysis, Cyber Forensics, Secure Coding, Cyber Law

CERTIFICATIONS

- **Technical Support Fundamentals** — Google / Coursera, 2026
- **Foundations of Cybersecurity** — Google / Coursera, 2025
- **Joy of Computing Using Python** — NPTEL – IIT Madras, 2025
- **Introduction to Software Engineering** — IBM / Coursera, 2024
- **Programming Fundamentals** — Duke University / Coursera, 2024
- **Virtual Assistant Programme** — ALX Africa, 2024
- **Web Design** — Orange Liberia Digital Center, 2022
- **Computer Software Operator** — YMCA of Liberia, 2015

LEADERSHIP

Technical Activity Coordinator · DTU International Student Society, Delhi, India

Nov 2022 – Jan 2024

- Planned and executed 5+ technical events for 150+ international students, driving cross-cultural collaboration and peer networking across the university community.
